INDONESIAN MINING DIRECTORY 2010

Mining sector, including Oil and Gas and also non Oil and Gas mining is the sixth biggest contributor for Gross Domestic Product / GDP in Indonesia. This Sector is also the backbone of Indonesia's energy. Frequent electrical energy crisis which happens in Indonesia often resulted from the disturbances of supply of Natural gas, fuel oil and coal that become the source of energy for most electric power plant in Indonesia.

The role of mining sector as one of the vital part in Indonesia's economy has begun to be seen and attracted investors either locally or foreign. This activity which is considered capital intense, intensive technology-related and high value needs a very big investment and hence can only be conducted by middle to big scale companies. Companies that handling this business also beyond question that they have matured planning, master in the technology and have high motivation because they face such a great challenge with high risk.

PT. Capricorn Indonesia Consult Inc has successfully released a Directory compilation with title **"INDONESIAN MINING DIRECTORY, 2010"**.
